***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-11, drawn to a polycyclic or monocyclic perfluorovinyl compound, classified in class 552, subclass 101.
  - II. Claims 12-28, drawn to a method of forming an optical film, classified in class 430, subclass 20.
  - III. Claims 29-44, drawn to an electro-optical device, classified in class 349, subclass 1.
  - IV. Claims 45-62, drawn to a polymer, classified in class 252, subclass 299.01.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are directed to related liquid crystal products. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed are mutually exclusive. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required

because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

3. During a telephone conversation with Andrew Caruso on September 22, 2006 a provisional election was made with traverse to prosecute the invention of Group II, claims 12-28. Applicant in replying to this Office action must make affirmation of this election. Claims 1-11 and 29-62 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Allowable Subject Matter***

5. The following is an examiner's statement of reasons for allowance:

The claimed method of forming an optical film comprising the steps of providing a monomer blend, mixing said blend with a photo-initiator and a photo-curable monomer, partially polymerizing the blend, depositing said mixed blend on a substrate to form a film, and curing said film, characterized in that said monomer blend comprises a polycyclic or monocyclic perfluorovinyl compound containing at least one structural unit represented by formulae I or II, is distinguished from the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Claims 12-28 are allowed.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geraldina Visconti whose telephone number is (571) 272-1334. The examiner can normally be reached 8:00am to 4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on (571) 272-1526. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
